

***Honoring organizations that have made a difference
1987-2011***

**ILLINOIS SUSTAINABLE
TECHNOLOGY CENTER**
PRAIRIE RESEARCH INSTITUTE

25 YEARS OF HONORING EXCELLENCE

For 25 years, the Illinois Sustainable Technology Center (ISTC) and the Governor's office have been honoring the companies and organizations that have made a difference in the environment of Illinois. The program started small and has grown to a highly regarded statewide recognition program. It was originally the Governor's Pollution Prevention Award. Several years ago it became the Governor's Sustainability Awards to better reflect the scope of programs being implemented by organizations throughout the state. There also have been special awards that were presented in several years. A panel from ISTC judges the applications. Finalists may be visited for verification of activities. Eligibility status of semi-finalists is obtained from the Illinois EPA. The Office of the Governor makes the final award decisions. The following are all of the winning organizations for the past 25 years.
